

File Edit View Run Kernel Settings Help

         Code 

```
[1]: expected_items = {"A", "B", "C", "D", "E"}
      available_items = {"A", "C", "E"}
      missing_items = expected_items - available_items
      print(missing_items)
```

```
{'B', 'D'}
```

```
[ ]:
```
