

File Edit View Run Kernel Settings Help

         Code 

```
[1]: import numpy as np
      sales_data = np.array([1200, 4500, 2300, 800, 3200])
      sorted_sales = np.sort(sales_data)[::-1]
      print("Sorted sales data (descending):", sorted_sales)
```

```
Sorted sales data (descending): [4500 3200 2300 1200  800]
```

```
[ ]:
```
